OBITUARIES,

1975-1978

Index to
Standard-Times Obituaries,
1975 – 1978

New Bedford Free Public Library
New Bedford, Massachusetts

This index lists individuals whose obituaries appeared in the New Bedford Standard-Times from January 2, 1975 to December 31, 1978. The four-year compilation was undertaken to fill a gap in vital statistics information contained in the Genealogy Room of the New Bedford Free Public Library. The New Bedford City Clerk records microfilmed by the Church of Jesus Christ of Latter Day Saints in the late 1960s extend to December 31, 1968. This index extends our coverage to New Bedford area vital statistics, thereby making a most basic genealogical resource readily available.

An attempt was made to be comprehensive in the compilation of these obituaries. The only exclusions are those national or international figures that had no direct contact with Southeastern Massachusetts. Obituaries for such persons are available in other sources, such as the *New York Times Index*. While omissions may have occurred, the goal of complete inclusion of names on the obituary page was met.

The index is organized as one continuous alphabetical listing, using the following abbreviations:

Ja	= January	Jul	= July
F	= February	Ag	= August
Mr	= March	S	= September
Ap	= April	O	= October
My	= May	N	= November
Je	= June	D	= December

Thus a citation appearing as "Mr. 28, 1975, 35" translates as March 28, 1975, page 35. Abbreviations of titles of courtesy and profession, such as Mrs. and Dr. are familiar and easily discernable, with one exception: the use of Sr. refers to both the titles Senior and Sister.

The only problem locating citations from this index on the microfilm will be for those obituaries that appear in either the city or suburban editions, but not in both. In such cases, the suburban pages follow the complete daily city edition on microfilm. These pages are numbered and circled for identification. Therefore, if a citation is not found in one edition, one must go to the other edition on the same page to find the reference.
